¹ This is the number issued by the third-party assessor for the existing product accredited under the Recognised ecolabel to which the variation applies.

² If the change is to the colourant ingredient, not just the concentration, the Applicant must supply a certificate of analysis or signed declaration from the colourant manufacturer that none of the metals listed in Section 6.2.3 of the Recognised Ecolabel Standard were used in the manufacture of the dye/colourant and the levels of lead, cadmium, arsenic and mercury are below the permitted levels.
